Education

The National Institute of Engineering, Mysore 2024 – 2027
Bachelor of Technology in Computer Science & Engineering *CGPA: 8.73/10*

D. Dharmaprakasha Banumaiah's Polytechnic, Mysore 2021 – 2024
Diploma in Computer Science & Engineering *Percentage: 85.80%*

Regional International School, Mysore 2021
Secondary School Leaving Certificate (SSLC) *Percentage: 85.12%*

Technical Skills

Languages	Java, JavaScript, Python, C
Frameworks	Spring Boot, React.js, Node.js, FastAPI, REST APIs
Databases	MySQL, MongoDB, SQLite, PostgreSQL
Tools	Git, GitHub, JWT, Spring Security

Internship Experience

Torus Solutions, Mysore Jan 2024 – Apr 2024
Software Development Intern *400 Hours*

- Completed a 400-hour internship focused on software development, contributing to assigned technical tasks and project activities.
- Developed an Employee Background Verification project using Java, Spring Boot, React.js, and MySQL.
- Worked on backend services, frontend integration, and relational database operations to support employee background verification workflows.

Technical Projects

PolyArguMinds *(React, Spring Boot, MySQL)*

- Developed an AI-powered full-stack discussion platform that enables users to participate in structured debates with intelligently generated AI arguments.
- Implemented JWT authentication and role-based access control using Spring Security.
- Built RESTful APIs with Spring Boot and integrated them with a responsive React frontend.
- Containerized the application using Docker and deployed the frontend on Vercel and backend on Render.

AI Cyber Threat Detection Platform *(Java, Spring Boot, React, MySQL)*

- Designed a cybersecurity monitoring platform concept for identifying suspicious network activity and presenting threats through a centralized security dashboard.
- Planned backend REST APIs and database structures to manage threat records, severity levels, incident statuses, and investigation history.
- Designed a React dashboard concept for threat monitoring, incident analytics, and security alert visualization.
- Outlined automated incident response workflows, threat classification, and investigation reporting to support security operations.

Certifications & Achievements

- **Finalist**, Tech Tatva Hackathon 2025.
- **Basics of Health Promotion and Education Intervention** – NPTEL Online Certification.
- **Big Data Computing** – NPTEL Online Certification.
